

Cordless Roman Style Fabric Shade

LIMITED LIFETIME WARRANTY

The enclosed product is warranted to the original residential retail purchaser as long as the product remains in the original window.

- I. Covered:
 - Lifetime: Entire product against manufacturing defects (i.e. a flaw in the product design, materials, or workmanship that causes the product to no longer function).
 - 3 Years: Cords, including internal cords such as those found in cordless blinds or shades.
 - 5 Years: All fabric
- II. Not Covered:
 - Normal Wear and Tear
 - Any product that fails due to: • abuse • exposure to salt air • improper installation • accident • extraordinary use • improper operation • alterations • improper cleaning • misapplication • damage from pests/insects/pets • improper handling • misuse
- III. Costs associated with: • product removal • transportation to and from the retailer • brand label removal • product re-measure • incidental or consequential damages • product re-installation • shipping
In the event there are multiple blinds/shades in the same room, only the defective blind/shade will be replaced.
- IV. To Report Shipping Damage: If damage occurred during shipping, call place of purchase and report within 7 calendar days or else you may be denied credit for your damaged product.
- V. To Obtain Service: If you suspect this product has a manufacturing defect in materials or workmanship: 1. Locate the sales receipt 2. Call place of purchase. Any unauthorized returns will not be accepted.
- VI. Warranty Remedy: THIS SHALL BE YOUR SOLE REMEDY UNDER THIS LIMITED WARRANTY.
If this product is found to have a manufacturing defect in materials or workmanship, we will (at our discretion) do one of the following:
 - repair the product • replace the product • refund the cost of the product
 Colors vary from lot to lot and may not exactly match sample swatch or previous purchases.
Discontinued items or color selections will be replaced with the closest equivalent current product.
- VII. YOUR RIGHTS UNDER STATE LAW:

This lifetime limited warranty gives you specific legal rights, and you may have other rights, which vary from state to state. Some states do not allow limitations on how long a warranty lasts, so the above limitations may not apply to you. No agent, representative, dealer, or unauthorized employee has the authority to increase or alter the obligation of this warranty. This lifetime limited warranty supersedes any previous versions.

PHASE II PRODUCTS, INC.
501 WEST BROADWAY, SUITE 1350
SAN DIEGO, CALIFORNIA 92101 • 1-800-264-1190

This product is designed to make your shade safer for children and pets. However, this shade is substantially different than the traditional shades that you might be accustomed to.

This shade has a double cording system on the back of the shade to help minimize the possibility of a child or pet becoming entangled in the cords.

See the operating instructions toward the back of this handbook for additional information about the function of your shade.

Note About Packaging Creases:
It is not uncommon for creasing to occur between the folds of a Roman Shade when it is removed from the carton. Normal daily operation of the shade (raising and lowering) should result in the creases disappearing in a few days.

INSTALLATION INSTRUCTIONS

Step 1. Check Package Contents

Missing part? Call 1-800-264-1190

Mounting hardware kit includes the following:

Part	Quantity
Mounting Bracket	2 (shades 21" to 48" wide)
	3 (shades 48 1/8" to 59 7/8" wide)
	4 (shades 60" to 72" wide)
1 1/8" Screws	2 per bracket
Handle for Bottom Rail	1 (shades 21" to 59 7/8" wide)
	2 (shades 60" to 72" wide)

[Note: one extra screw is included for convenience]

Step 2. Tools Required

Screwdriver, tape measure, pencil, drill, drill

bits, step ladder.

Note: use #6 plastic anchors for dry wall or plaster mounting (not included).

Drill Bits: for screws, use a 3/32" drill bit - for wall anchors, use 1/4" drill bit.

Step 3. Bracket Location and Installation

Your roman shade may be installed either inside the window frame or outside the window frame. One mounting bracket should be positioned about 2" to 4" from each end of the head rail. For wider shades that require

3 or more brackets, these should be spaced evenly between the two outermost brackets. The procedure outlined below will assure

proper bracket placement.

Attaching the brackets:

Lift the Head Rail into position such that the front edge of the bracket is under the inner front edge of the head rail, and then push the head rail upward until the flexible tab at the bottom of each bracket snaps onto the back of the head rail. Check carefully to assure that each bracket is properly secured

For Outside Mounting:

Clip the brackets onto the head rail as described above. Hold the shade level at the height desired and center it over the window opening. Mark the exact location of each bracket with a pencil. Remove the brackets from the head rail and position the top of each bracket at the marked location and screw each bracket into the wall or window molding using the 1/8" screws, pre-drill the screw holes using a 3/32" drill bit.

For Inside Mounting:

Clip the brackets onto the head rail as described above. Hold the shade in place and make a pencil mark at the rear of each bracket where it contacts the inside of the window frame. Remove the brackets from the head rail and align them with the marks. Attach each bracket using the 1/8" screws, pre-drill the screw holes using a 3/32" drill bit.

Step 4. Attach Handle(s)

Attach the Handle to the bottom rail as illustrated. The handle is designed to minimize contact with the shade fabric. Always raise and lower the shade SLOWLY(!) to assure that the fabric folds neatly.

Step 5. What to Expect / How to Operate

See the special note about fabric creases on front page.

To lower the shade: grip the bottom rail handle and slowly pull straight down. To raise the shade, grip the bottom rail handle and push up slowly. Always keep the bottom of the shade level. Adjust the folds by hand to get the best possible look.

If you have trouble lifting your cordless shade:

If the shade is left in one position for a long period of time, it might be necessary to lift and lower the shade several times to restore normal function.

If the shade has been fully raised for a long period of time, it might tend to spring-back (rebound) slightly from the desired length position. This can also be remedied by lifting and lowering the shade several times.

CLEANING

The head rail can be wiped clean with a damp sponge. To clean the shade fabric, use a feather duster or vacuum lightly using the soft brush or upholstery attachment.

REPLACEMENT PARTS

In the event that replacement parts are ever needed, you may call:

1-800-264-1190

Please be sure to provide the following information, if possible:

- The complete model or catalog number of your product
- A description of the product
- A description of the part needed
